## Set of 8 Brutalist Bar Stools, Europe, circa 1970s

### DESCRIPTION

Set of 8 Brutalist-inspired bar stools in stained beech and steel, Europe, circa 1970s. The sculpted, saddle-shaped seats are carved with a gentle curvature that embraces the body, while cut-out handles on either side serve as practical handholds. Three tapered legs meet a circular steel footrest, giving the stools both balance and visual rhythm. Beautiful surface patina and tone variation between stools. Wear consistent with age and use. Marks, scratches etc.
